Manuel d'instructions

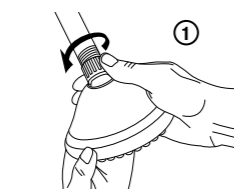

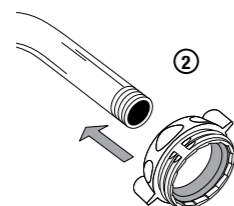

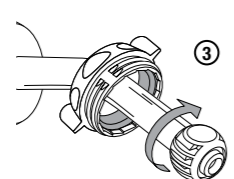

Manual de instrucciones

IMPORTANT: Retain for future reference, read carefully.
IMPORTANT : À conserver pour référence ultérieure – lire attentivement.
IMPORTANTE: Guarde estas instrucciones para referencia futura, lea detenidamente.

Model Number / Numéro de modèle / Número de modelo: AAD-773

FN 20021541-F AA

INSTALLATION

-  1. Remove old shower head. Clean threads of shower pipe thoroughly with a cloth rag and/or brush.
-  2. Place large nut over shower pipe (flat side toward wall).
-  3. Thread pivot ball onto shower pipe and hand-tighten to a snug fit.

OPERATION

To change the spray setting on the fixed mount simply turn the dial on the head using the lever. (8).

To use the overhead rainfall, turn the knob on the side in either direction. (9) To combine any spray on the fixed mount, with the overhead rainfall, turn the knob on the side again.

WARNING:

- To avoid hot water dangers and conserve even more energy, make sure your water heater is set at 120°F (48.9°C) or below.
- Test the tub/shower water with your hand before bathing.

LIMITED LIFETIME WARRANTY

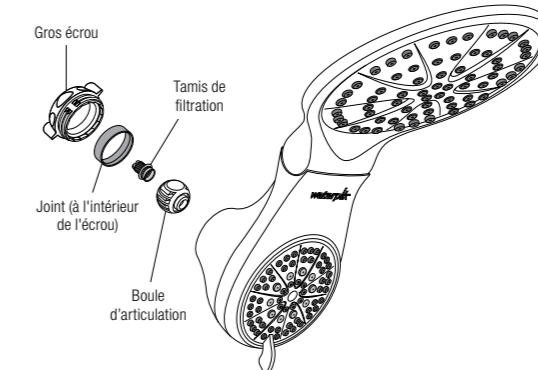

Save your receipt as proof of purchase is required for warranty action. Water Pik, Inc. warrants to the original purchaser of this product that it is free from defects in material and workmanship for as long as the original purchaser owns this product. Water Pik, Inc. will replace any part of the product which in our opinion is defective, provided that the product has not been abused, misused, altered or damaged after purchase. (This includes, but is not limited to, damage due to use of tools or harsh chemicals, from operation outside of normal pressure ranges, and any use in non-domestic applications). In the event an item has been discontinued we will replace with what we deem to be the closest product. Water Pik, Inc. is not responsible for labor charges, installation, or other consequential cost. The responsibility of Water Pik, Inc. shall not exceed the original purchase price of the product. This warranty gives you specific legal rights. You may also have other rights that vary where you reside.

BIENVENUE! ENTREZ DANS LE MONDE DE LA DOUCHE DUALSPRAY+™ WATERPIK®

Nous vous remercions pour l'achat de cette doucheette Waterpik®. Ce manuel vous fournit les informations nécessaires pour une installation facile et rapide. Dans quelques minutes seulement, vous pourrez profiter d'une douche 2 en 1 DualSpray+™.

COMPOSANTS

4. Serrer la boule d'articulation d'un quart à un demi-tour supplémentaire à l'aide d'une clé à molette ou d'une pince. Envelopper la boule d'articulation dans un chiffon si l'on utilise une pince.

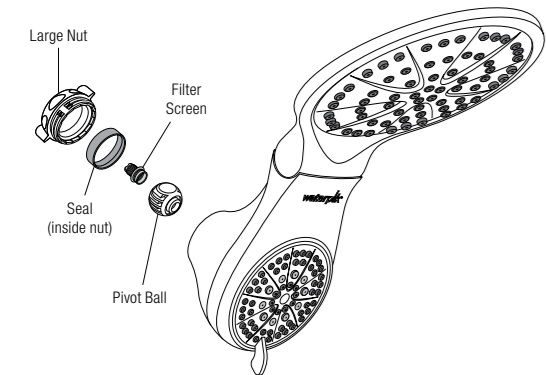

5. Placer le collier fileté de la doucheette contre la boule d'articulation (5A), régler la doucheette à la position souhaitée, puis serrer l'écrou dans le sens horaire jusqu'à ce qu'il ne tourne plus librement. (5B)

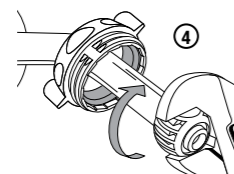

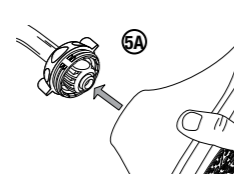

ENGLISH

WELCOME TO THE WATERPIK® DUALSPRAY+™ SHOWER EXPERIENCE

Thank you for purchasing this Waterpik® shower head. This booklet gives you the proper information to make installation easy and quick. You are minutes away from enjoying your 2-in-1 DualSpray+™ showering experience.

COMPONENTS

-  4. With an adjustable wrench or pliers, tighten pivot ball an additional ¼ to ½ turn. Wrap pivot ball with a cloth if you are using pliers.
-  5. Hold threaded collar of shower head up to pivot ball (5A), adjust shower head to desired position and tighten nut in clockwise direction until secure. (5B)

- For additional safety for Ecoflow® or high efficiency shower heads, it is recommended that all homes have installed a pressure balance tub and shower valve with the rotational limit stops properly set by a plumber.
- For external use only.** The potentially deadly amoeba, *Naegleria fowleri*, may be present in some tap water or unchlorinated well water.

CARE AND CLEANING

- To maintain proper working conditions cleaning is required when mineral deposits appear on the spray orifices. To clean mineral deposits, gently rub the rubber nozzles on the face of the shower head to dislodge.
- To clean heavier deposits, remove shower head and soak face down in 1-2 cups of white vinegar (use white vinegar only) for about 2-3 hours. Replace shower head and run in each mode to flush out vinegar.
- Do not clean or rinse any part with harsh chemicals, heavy duty cleaners, or abrasives; this may damage parts or finish and will void warranty.
- Clean filter screen by unscrewing from the pivot ball and rinse by back flushing to remove particles. Follow steps 2-5 under installation to reinstall shower head.

AUTRES ARTICLES UTILES

Remarque : Nous recommandons d'éviter d'utiliser du composé pour filetage (pâte lubrifiante) ou du ruban pour tuyau.

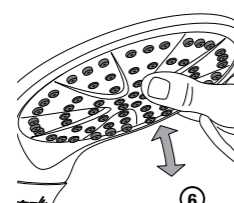

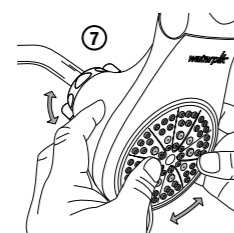

6. Pour régler l'angle de la doucheette de type rideau d'eau, il suffit d'appuyer sur la tête vers le haut ou vers le bas à la position souhaitée. La tête s'emboîte.

7. Pour régler la direction du jet de la doucheette à montage fixe, tenir la doucheette fixe à deux mains, puis la faire pivoter vers le haut ou vers le bas sur la boule d'articulation.

OTHER HELPFUL ITEMS

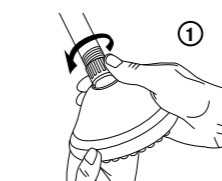

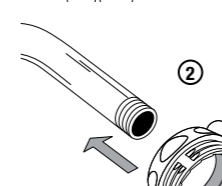

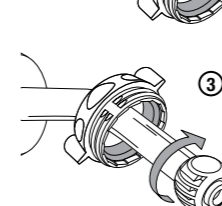

Note: We recommend avoiding the use of pipe thread compound (pipe dope) or pipe tape.

-  6. To adjust the angle of the drencher, simply pull the head up or down to desired position. The head will click into place.
-  7. To adjust the fixed mount spray direction, hold fixed mount with both hands and rotate fixed mount up or down on pivot ball.

TROUBLESHOOTING GUIDE

Problem	Solution
No water flow from installed shower head	a Confirm previous shower washer is not in the j-pipe. b Confirm there is only one washer in the pivot ball.
Low water pressure or missing spray patterns	a Clean shower head in vinegar/water solution. (See care & cleaning section). b Clean filter screen.
Leaking at pipe pivot ball connection	a Confirm only one washer is seated on top of the screen. b Grate bar of soap across the j-pipe threads to act as a sealant.
Shower head too stiff to change angle	a Install shower head to provide additional leverage to change angle of spray (contact Water Pik for further instructions).
Loose Shower Head	a Check inside the large nut for a large plastic ring. Note: the ring is tapered. Make sure the ring is installed correctly. The smooth surfaced side of the ring should face towards the pipe inside the large nut and will snap into place when properly installed.

INSTALLATION

-  1. Retirer l'ancienne doucheette. Nettoyer soigneusement le filetage du tuyau de douche avec un chiffon et/ou une brosse.
-  2. Placer le gros écrou sur le tuyau de douche (extrémité plate vers le mur).
-  3. Enfiler la boule d'articulation sur le tuyau de douche et serrer fermement à la main pour bien l'ajuster.

FONCTIONNEMENT

Pour modifier le réglage du jet sur la doucheette fixe, il suffit de tourner le cadran sur la tête au moyen du levier. (8).

Pour une pluie battante en hauteur, tourner le bouton situé sur le côté dans n'importe quel sens. (9) Pour combiner n'importe quel jet de la doucheette fixe avec la pluie battante en hauteur, tourner de nouveau le bouton situé sur le côté.
